PROFFESIONAL EXPERIENCE

ATIS Software Factory & Digital Agency Tirana – November 2024 – Present | https://atis.al or https://atisgroup.co/

Junior Front-End Developer

- Integrated and optimized RESTful APIs to improve data fetching and state management across multiple Angular applications
- Utilized RxJS for handling asynchronous data streams, ensuring efficient state updates and error handling.
- Identified and fixed memory leaks by implementing proper subscription management and optimizing component lifecycle methods.

- Implemented multilingual support with ngx-translate, enabling seamless language switching across the application.
- Enhanced user experience by building dynamic, reusable Angular components and modular UI features.

Sunny Hill Tech CH – February 2024 – June 2024 | https://sunnyhilltech.ch/en/home

Junior Front-End Developer

- Used Bit Bucket for managing code changes across 10 code base repositories.
- Used Jira to collaborate on project management, track client requests, and debug tickets.
- Optimized website for better SEO resulting in 2x traffic increase over 6 months.
- Worked with designers to turn Adobe XD designs into interactive pages with consistent design.

Sunny Hill Tech CH – November 2023 – February 2024 | https://sunnyhilltech.ch/en/home

Intern Front-End Developer

- Developed SPA (single-page-application) and created multi device user interfaces for the Swiss insurance industry.
- Ensured web forms are validated and data submissions are properly handled.
- Designed websites using SCSS and Angular UI libraries as part of a web presence upgrade initiative.
